

Math 114 Fall 2018
Calculus I Final Practice Problems
Final Exam on Friday, December 7

You definitely don't need to do all of these problems; when I give a range, do as many as you think you need to be comfortable with that type of problem.

Remember the odd-numbered problems have solutions in the back of the book.

1. Stewart 4.3.1-10
2. Stewart 4.3.25-36
